

## Secure Airfreight:

Customers receive and ship cargo worldwide in time and in a good condition.

But what about the safety? Airfreight requires new strict rules.

Shipitnow can assist you in finding the fastest way to save air cargo transport. It doesn't matter if you have a single package or a complete charter you have to take care of:

- your employees have successfully completed the course „airfreight employee” .
- your premisses for handling airfreight is fully secured and not accessible for unauthorized persons.
- the chain of carriers with whom you collaborate is safe.

-Goods which do not meet the above criteria will be separated at the airport for checking on explosives and flammable liquids. This is a time consuming and expensive proces and it will delay the shipping. Shipitnow can assist you to follow the security demands prior to shipping, because that is what we are good at and it will ensure a smooth shipping process.

- Safe airfreight of your cargo.
- Legal requirements and efficiency guaranteed
- Independence within the logistic chain
- A tailor made solution, synchronized with your business proces.
